WRITING THE BLURB

"Writing the Blurb" can help your child master rigorous California State Standards while being creative at the same time! The "blurb" denotes a short piece of writing tailored to focusing on specific elements that can help take a student's compositions from good to spectacular! Results are proven through soaring test-scores and heightened interest-level.

Taught by Natalie Knox, an experienced middle school language-arts teacher, GATE coordinator, Drama director, creator of "Writing across the Board"... a program to help support teachers in their instruction of writing.

Natalie is an advocate of creative learning that is meaningful and rigorous. She earned her BA in English literature and Dramatic Arts @ UCSB where she obtained a writing emphasis in both areas. She then acquired a single-subject, English credential and taught in the public schools for 6 years before deciding to take an "early" retirement to be a full-time mom... she has been teaching writing strategies on and off ever since, both privately and at an Academy for accelerated learning.
